

**SISKIYOU CHAPTER
NORTH AMERICAN ROCK GARDEN SOCIETY (NARGS)**

Members of the Siskiyou Chapter of the North American Rock Garden Society are enthusiastic about plants —from local native wildflowers to rare and unusual garden beauties from all around the world.

A member is not required to have a rock garden, however being involved offers insight as to using small plants in the landscape or in troughs. Our meetings provide opportunities for both beginners and experts to expand their knowledge of plant cultivation and propagation, as well as of construction, maintenance, and design of special interest gardens.

Our e-mail notices and new Chapter website: <http://www.siskiyousummits.org> allows members to be actively informed about current meetings, see member gardens and plants, share field trip photos, and comment on special topics. Regular meetings are on the 2nd Tuesday of the month, 7 pm, October through May. Plant sales are held in Spring and Fall — locations and times to be announced. The monthly meetings are usually in Lidgate Hall, located behind the United Congregational Church of Christ, 1801 East Jackson Street, Medford, OR. We have a Facebook page, LIKE US--Siskiyou Chapter North American Rock Garden Society.

The chapter year is from June 1 to May 31. A roster of paid members will be included in the annual Member Handbook published during the summer.

Other benefits of membership include :

- nine meetings a year, including the annual dinner and plant auction
- presentations at meetings by members and experts on a variety of rock gardening subjects, wildflowers of the world, and other related gardening subjects
- purchase rare and unusual plants at the annual members plant sales
- field trips led by members and guests
- access to our large library encompassing books of botanical interest
- visits to member's rock gardens
- access to seeds offered by the seed exchange
